

EXECUTIVE BRIEF

Ingest Once, Preserve the Evidence

What leaders should authorize, require, and refuse

Production Unit	PU-B07-C07
Decision status	Controlled learning asset
Audience	Executives, programme owners, statisticians, technical leads
Data	Synthetic examples only

Executive takeaway: Create a traceable agricultural evidence layer that preserves source meaning, provenance, units, time, geography, and lawful use through ingestion.

Why it matters

Convenient pipelines can erase provenance or change meaning, leaving downstream agricultural decisions impossible to audit.

Illustrative application

A rainfall observation retains station identity, coordinate version, unit, timestamp, calibration state, and source checksum after ingestion.

Minimum approval conditions

- Named accountable owner and lawful purpose
- Defined evidence, provenance, reference period, population, and geography
- Decision-relevant validation and visible uncertainty
- Documented abstention, referral, override, and incident processes
- Accessibility, equity, security, retention, and retirement review

Non-negotiable boundary

The analytical system may inform review. It may not independently authorize benefits, sanctions, enforcement, clinical treatment, school exclusion, displacement, or another consequential action.
