

CANONICAL LESSON

Food Security Is More Than Food Supply

Decision-centred foundations for accountable sector intelligence

Production Unit	PU-B07-C19
Notebook	V7_A_N14
Status	Controlled educational draft v0.1
Data boundary	Synthetic instructional data only

Central decision: Assess food security through availability, access, utilization, stability, vulnerability, and uncertainty with appropriate household and population denominators.

Learning outcomes

Why this matters

National food availability can improve while vulnerable households still face severe access, nutrition, or stability failures.

The analytical workflow is useful only when evidence, uncertainty, authority, and action are connected explicitly. The model supports professional judgement; it does not replace accountable institutional authority.

Worked cross-sector example

A food-security brief combines supply, market access, diet, coping, seasonality, and shock exposure before escalation.

Boundary: The example supports learning and review. It does not constitute an official statistic, eligibility determination, enforcement action, clinical judgement, or operational authorization.

Practice and reflection

- 1.
- Add survey confidence intervals.
- 2.
- Explain the four dimensions.
- 3.

- Define the classification boundary.

Answer key

- 1.
- Use weights, clustering, stratification, and replicate/Taylor variance as designed.
- 2.
- Availability concerns supply; access concerns resources; utilization concerns diet/health; stability concerns persistence and shocks.
- 3.
- Any formal phase classification follows the competent framework, evidence convergence, expert protocols, documentation, and governance—not this index alone.

Operational readiness checklist

- Purpose and decision owner are named.
- Evidence definitions, provenance, and lawful access are documented.
- Uncertainty and abstention are visible.
- Human review, escalation, monitoring, incident response, and retirement are assigned.
- Equity, accessibility, security, and sector-specific approval are complete.
