

EXERCISES AND EXACT SOLUTIONS

V7_A_N15 - National Agricultural Intelligence Capstone

Independent practice, facilitated discussion, and assessment reference

Production Unit	PU-B07-C20
Notebook	V7_A_N15
Version	0.1
Assessment boundary	Learning evidence—not operational authorization

Instructions

Complete Part A before consulting the solutions. State assumptions explicitly. Where evidence is insufficient, write an abstention or escalation response rather than inventing precision.

Exercise 1

Defend the release gate.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 2

Trace one headline to source records.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 3

Conduct an oral challenge on a false alarm.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exact solutions and scoring guide

Solution 1

Release requires data, statistical, sector, confidentiality, governance, and named-authority acceptance.

Solution 2

Follow indicator metadata, transformations, weights, model version, interval, review record, and release version.

Solution 3

Compare avoided harm, response burden, threshold alternatives, missed-event costs, and the post-event learning record.

Scoring rubric

Criterion	Strong evidence	Revision required
Decision framing	Owner, action, horizon, authority named	Model output substituted for decision
Evidence	Concepts, grain, provenance, limits explicit	Data treated as self-explanatory
Uncertainty	Abstention/escalation used appropriately	False precision or hidden limitations
Governance	Human authority and safeguards retained	Authority silently delegated
