

EXERCISES AND EXACT SOLUTIONS

Nutrition Evidence With Dignity

Independent practice, facilitated discussion, and assessment reference

Production Unit	PU-B07-C29
Notebook	V7_B_N09
Version	0.1
Assessment boundary	Learning evidence—not operational authorization

Instructions

Complete Part A before consulting the solutions. State assumptions explicitly. Where evidence is insufficient, write an abstention or escalation response rather than inventing precision.

Exercise 1

Add survey weights.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 2

Audit measurement quality.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 3

Protect privacy.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exact solutions and scoring guide

Solution 1

Use design-weighted prevalence and design-consistent intervals.

Solution 2

Check training, calibration, digit preference, biological plausibility, missingness, and repeat measures.

Solution 3

Aggregate safely, minimize fields, control access, suppress small cells, and prohibit re-identification or punitive use.

Scoring rubric

Criterion	Strong evidence	Revision required
Decision framing	Owner, action, horizon, authority named	Model output substituted for decision
Evidence	Concepts, grain, provenance, limits explicit	Data treated as self-explanatory
Uncertainty	Abstention/escalation used appropriately	False precision or hidden limitations
Governance	Human authority and safeguards retained	Authority silently delegated
