

EXERCISES AND EXACT SOLUTIONS

V7_B_N13 - Emergency Operations Decision Room

Independent practice, facilitated discussion, and assessment reference

Production Unit	PU-B07-C33
Notebook	V7_B_N13
Version	0.1
Assessment boundary	Learning evidence—not operational authorization

Instructions

Complete Part A before consulting the solutions. State assumptions explicitly. Where evidence is insufficient, write an abstention or escalation response rather than inventing precision.

Exercise 1

Deduplicate incident reports.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 2

Add asymmetric escalation costs.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 3

Protect the incident log.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exact solutions and scoring guide

Solution 1

Use stable event keys, time-location windows, provenance, and human reconciliation.

Solution 2

Make missed severe events costlier while controlling alarm burden and capacity.

Solution 3

Minimize personal data, restrict access, preserve revisions, record decisions, and review after the event.

Scoring rubric

Criterion	Strong evidence	Revision required
Decision framing	Owner, action, horizon, authority named	Model output substituted for decision
Evidence	Concepts, grain, provenance, limits explicit	Data treated as self-explanatory
Uncertainty	Abstention/escalation used appropriately	False precision or hidden limitations
Governance	Human authority and safeguards retained	Authority silently delegated
