

EXERCISES AND EXACT SOLUTIONS

Plan Seats Before Crowding Arrives

Independent practice, facilitated discussion, and assessment reference

Production Unit	PU-B07-C39
Notebook	V7_C_N04
Version	0.1
Assessment boundary	Learning evidence—not operational authorization

Instructions

Complete Part A before consulting the solutions. State assumptions explicitly. Where evidence is insufficient, write an abstention or escalation response rather than inventing precision.

Exercise 1

Add school-level accessibility.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 2

Model construction lead time.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 3

Explain why a surplus does not justify closure.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exact solutions and scoring guide

Solution 1

Use travel time, safety, disability access, language, gender, and service availability.

Solution 2

Forecast demand at commissioning date and include land, design, procurement, construction, staffing, and maintenance gates.

Solution 3

Seats may be unusable, distant, mismatched by grade/shift, or needed for resilience and class-size goals.

Scoring rubric

Criterion	Strong evidence	Revision required
Decision framing	Owner, action, horizon, authority named	Model output substituted for decision
Evidence	Concepts, grain, provenance, limits explicit	Data treated as self-explanatory
Uncertainty	Abstention/escalation used appropriately	False precision or hidden limitations
Governance	Human authority and safeguards retained	Authority silently delegated
