

EXECUTIVE BRIEF

Put Learning Inputs Where They Can Be Used

What leaders should authorize, require, and refuse

Production Unit	PU-B07-C40
Decision status	Controlled learning asset
Audience	Executives, programme owners, statisticians, technical leads
Data	Synthetic examples only

Executive takeaway: Allocate textbooks and learning inputs using verified demand, curriculum fit, delivery capacity, utilization, equity, and auditable follow-through.

Why it matters

Procurement counts can appear successful while materials remain mismatched, delayed, inaccessible, or unused.

Illustrative application

A district reconciles enrolment, stock, curriculum, and delivery evidence before authorizing redistribution.

Minimum approval conditions

- Named accountable owner and lawful purpose
- Defined evidence, provenance, reference period, population, and geography
- Decision-relevant validation and visible uncertainty
- Documented abstention, referral, override, and incident processes
- Accessibility, equity, security, retention, and retirement review

Non-negotiable boundary

The analytical system may inform review. It may not independently authorize benefits, sanctions, enforcement, clinical treatment, school exclusion, displacement, or another consequential action.
