

EXERCISES AND EXACT SOLUTIONS

Fix the School Data Before Judging the School

Independent practice, facilitated discussion, and assessment reference

Production Unit	PU-B07-C41
Notebook	V7_C_N06
Version	0.1
Assessment boundary	Learning evidence—not operational authorization

Instructions

Complete Part A before consulting the solutions. State assumptions explicitly. Where evidence is insufficient, write an abstention or escalation response rather than inventing precision.

Exercise 1

Detect duplicate schools.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 2

Version the school registry.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 3

Explain why outliers are not misconduct.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exact solutions and scoring guide

Solution 1

Compare identifiers, coordinates, names, ownership, and levels, then resolve with registry owners.

Solution 2

Preserve effective dates, mergers, splits, closures, reopenings, and identifier lineage.

Solution 3

Extreme values can reflect real crowding, inclusion, reporting scope, timing, or errors and require verification.

Scoring rubric

Criterion	Strong evidence	Revision required
Decision framing	Owner, action, horizon, authority named	Model output substituted for decision
Evidence	Concepts, grain, provenance, limits explicit	Data treated as self-explanatory
Uncertainty	Abstention/escalation used appropriately	False precision or hidden limitations
Governance	Human authority and safeguards retained	Authority silently delegated
