

EXERCISES AND EXACT SOLUTIONS

Inclusion Begins by Seeing Barriers

Independent practice, facilitated discussion, and assessment reference

Production Unit	PU-B07-C44
Notebook	V7_C_N09
Version	0.1
Assessment boundary	Learning evidence—not operational authorization

Instructions

Complete Part A before consulting the solutions. State assumptions explicitly. Where evidence is insufficient, write an abstention or escalation response rather than inventing precision.

Exercise 1

Explain under-identification.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 2

Add universal-design indicators.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 3

Define safeguarding.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exact solutions and scoring guide

Solution 1

Registration depends on screening, stigma, service availability, definitions, and administrative access, so it is not prevalence.

Solution 2

Measure physical, communication, curricular, digital, transport, sanitation, and assessment accessibility.

Solution 3

Use consent, minimization, restricted access, non-discrimination, referral protocols, grievance channels, and no automated individual decisions.

Scoring rubric

Criterion	Strong evidence	Revision required
Decision framing	Owner, action, horizon, authority named	Model output substituted for decision
Evidence	Concepts, grain, provenance, limits explicit	Data treated as self-explanatory
Uncertainty	Abstention/escalation used appropriately	False precision or hidden limitations
Governance	Human authority and safeguards retained	Authority silently delegated
