

EXERCISES AND EXACT SOLUTIONS

Keep Learning Going When Hazards Arrive

Independent practice, facilitated discussion, and assessment reference

Production Unit	PU-B07-C45
Notebook	V7_C_N10
Version	0.1
Assessment boundary	Learning evidence—not operational authorization

Instructions

Complete Part A before consulting the solutions. State assumptions explicitly. Where evidence is insufficient, write an abstention or escalation response rather than inventing precision.

Exercise 1

Add evacuation accessibility.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 2

Separate hazard and exposure.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 3

Define closure authority.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exact solutions and scoring guide

Solution 1

Audit accessible routes, transport, communications, assistance, shelter, sanitation, and drills.

Solution 2

Hazard is the event; exposure is who/assets are present; vulnerability and capacity shape consequences.

Solution 3

Closure follows competent authority, verified conditions, proportionality, continuity plans, communication, and review.

Scoring rubric

Criterion	Strong evidence	Revision required
Decision framing	Owner, action, horizon, authority named	Model output substituted for decision
Evidence	Concepts, grain, provenance, limits explicit	Data treated as self-explanatory
Uncertainty	Abstention/escalation used appropriately	False precision or hidden limitations
Governance	Human authority and safeguards retained	Authority silently delegated
