

EXERCISES AND EXACT SOLUTIONS

Evaluate Programmes, Not Just Scores

Independent practice, facilitated discussion, and assessment reference

Production Unit	PU-B07-C49
Notebook	V7_C_N14
Version	0.1
Assessment boundary	Learning evidence—not operational authorization

Instructions

Complete Part A before consulting the solutions. State assumptions explicitly. Where evidence is insufficient, write an abstention or escalation response rather than inventing precision.

Exercise 1

Account for school clustering.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 2

Distinguish statistical and educational importance.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 3

Audit heterogeneous effects.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exact solutions and scoring guide

Solution 1

Randomization and inference must respect the school or assigned cluster.

Solution 2

A precise small score change may not matter educationally; compare against meaningful benchmarks and costs.

Solution 3

Pre-specify subgroups, report uncertainty, avoid deficit labels, and investigate implementation and access.

Scoring rubric

Criterion	Strong evidence	Revision required
Decision framing	Owner, action, horizon, authority named	Model output substituted for decision
Evidence	Concepts, grain, provenance, limits explicit	Data treated as self-explanatory
Uncertainty	Abstention/escalation used appropriately	False precision or hidden limitations
Governance	Human authority and safeguards retained	Authority silently delegated
