

EXERCISES AND EXACT SOLUTIONS

Access Means Reaching Opportunity Reliably

Independent practice, facilitated discussion, and assessment reference

Production Unit	PU-B07-C57
Notebook	V7_D_N07
Version	0.1
Assessment boundary	Learning evidence—not operational authorization

Instructions

Complete Part A before consulting the solutions. State assumptions explicitly. Where evidence is insufficient, write an abstention or escalation response rather than inventing precision.

Exercise 1

Add multiple destinations.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 2

Include disability access.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 3

Explain why a short distance may still mean poor access.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exact solutions and scoring guide

Solution 1

Compute opportunity-specific cumulative or gravity measures with service hours.

Solution 2

Audit vehicles, stops, paths, information, assistance, and destination accessibility.

Solution 3

Cost, waiting, transfers, safety, reliability, congestion, barriers, and opening hours can dominate distance.

Scoring rubric

Criterion	Strong evidence	Revision required
Decision framing	Owner, action, horizon, authority named	Model output substituted for decision
Evidence	Concepts, grain, provenance, limits explicit	Data treated as self-explanatory
Uncertainty	Abstention/escalation used appropriately	False precision or hidden limitations
Governance	Human authority and safeguards retained	Authority silently delegated
