

EXERCISES AND EXACT SOLUTIONS

Risk Triage Is Not a Building Certificate

Independent practice, facilitated discussion, and assessment reference

Production Unit	PU-B07-C60
Notebook	V7_D_N10
Version	0.1
Assessment boundary	Learning evidence—not operational authorization

Instructions

Complete Part A before consulting the solutions. State assumptions explicitly. Where evidence is insufficient, write an abstention or escalation response rather than inventing precision.

Exercise 1

Add occupancy type.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 2

Audit fairness.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 3

Explain certificate boundary.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exact solutions and scoring guide

Solution 1

Apply code-relevant risk factors by use without inventing requirements.

Solution 2

Compare error and delay burdens across applicant/place types, inspect proxies, and provide review/appeal.

Solution 3

Only the authorized authority and qualified professionals can inspect, approve, certify, restrict, or enforce.

Scoring rubric

Criterion	Strong evidence	Revision required
Decision framing	Owner, action, horizon, authority named	Model output substituted for decision
Evidence	Concepts, grain, provenance, limits explicit	Data treated as self-explanatory
Uncertainty	Abstention/escalation used appropriately	False precision or hidden limitations
Governance	Human authority and safeguards retained	Authority silently delegated
