

EXERCISES AND EXACT SOLUTIONS

Evaluate Place-Based Programmes

Independent practice, facilitated discussion, and assessment reference

Production Unit	PU-B07-C64
Notebook	V7_D_N14
Version	0.1
Assessment boundary	Learning evidence—not operational authorization

Instructions

Complete Part A before consulting the solutions. State assumptions explicitly. Where evidence is insufficient, write an abstention or escalation response rather than inventing precision.

Exercise 1

Test parallel pre-trends.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 2

Detect displacement.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exercise 3

Report distributional effects.

- Required output: a concise decision-ready response with owner, evidence, uncertainty, and boundary where applicable.

Exact solutions and scoring guide

Solution 1

Compare several pre-period slopes and event-study patterns, recognizing that passing tests cannot prove the assumption.

Solution 2

Track population composition, rents, evictions, business turnover, and movement into adjacent areas.

Solution 3

Show outcomes separately by tenure, income, gender, disability, age, and location with uncertainty and participation.

Scoring rubric

Criterion	Strong evidence	Revision required
Decision framing	Owner, action, horizon, authority named	Model output substituted for decision
Evidence	Concepts, grain, provenance, limits explicit	Data treated as self-explanatory
Uncertainty	Abstention/escalation used appropriately	False precision or hidden limitations
Governance	Human authority and safeguards retained	Authority silently delegated
